

## **Addendum to Owner's Manual**

Model 529C556B

This is a standard Model 529H, firmware revision 1.00, with the following modifications:

1. Replace the "110" baud rate selection in the configuration menu with "19,200" for all ports. All ports will come factory set at 19,200 bps, 8 bit word size, 1 stop bit, no parity, and XON/XOFF disabled.
2. The "B" in 529C556B will not be displayed in the header of the main configuration menu.
